PEARL RIVER, N.Y. 10965

JAMES CULLEN KENNETH F. KARDASHIAN GERALD G. WALTERS

To the Board of Directors Vandham Securities Corp.

We have audited the accompanying statement of financial condition of Vandham Securities Corp. as of December 31, 2006 and the related statements of income, changes in stockholders' equity, changes in liabilities subordinated to claims of general creditors and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position, results of operations and cash flows of Vandham Securities Corp. as of and for the year ended December 31, 2006, in conformity with accounting principles generally accepted in the United States of America.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in the supplementary data is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17a-5 of the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Folio I

#### VANDHAM SECURITIES CORP.

#### NOTES TO FINANCIAL STATEMENTS

# AS OF DECEMBER 31, 2006

#### NOTE 1-SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A <u>The Company</u>: Vandham Securities Corp. (the Company) was incorporated under the laws of the State of New York on March 16, 1990. The Company was established to engage in all aspects of the securities business including, but not limited to, the buying, selling, trading, underwriting and investment of stocks, bonds, securities and futures of every nature.
- B Revenue: Transactions for the Company's accounts in securities, short-term money market instruments and the related revenue and expenses are recorded on a trade-date basis. For purposes of determining the realized gain or loss on a sale, the cost of securities sold is based on a first in, first out method, unless shares are otherwise specifically identified. Dividends are recorded on the ex-dividend date and interest income is accrued as earned.
- C <u>Investment In Securities</u>: Marketable securities are stated at quoted market values; securities not readily marketable are stated at estimated fair value as determined by management. The resulting difference between cost and market is included in income.
- Depreciation is computed using accelerated methods over the estimated useful lives of the assets. Expenditures that materially increase the life of the related assets are capitalized. Expenditures for maintenance and repairs are charged to operations.
- E <u>Policy of Cash Equivalents</u>: For purposes of the statement of cash flows, cash equivalents include time deposits, money market funds and all highly liquid debt instruments with original maturities of three months or less.

#### NOTE 2--CASH AND CASH EQUIVALENTS SEGREGATED UNDER FEDERAL AND OTHER REGULATIONS

Cash of \$3,805 has been segregated in a special reserve bank account for the benefit of customers under Rule 15c3-3 of the Securities and Exchange Commission.

#### NOTES TO FINANCIAL STATEMENTS

#### AS OF DECEMBER 31, 2006

#### NOTE 3-MARKETABLE SECURITIES OWNED AND SOLD, NOT YET PURCHASED

Marketable securities are stated at quoted market values and are comprised of the following:

	<u>Owned</u>	Sold, Not Yet Purchased
Corporate equity investments	\$1,170,513 =======	\$663,141 ======

The Company's security investments are bought or sold short and held principally for the purpose of selling or repurchasing them in the near term and are therefore classified as trading securities. Trading securities are recorded at fair value on the balance sheet, with the change in fair value during the period included in earnings.

The Company has sold securities that it does not currently own and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the financial statements at December 31, 2006, at market value of the related securities and will incur a loss if the market value of the securities increases subsequent to December 31, 2006.

Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of financial condition.

#### NOTE 4--CREDIT RISK CONCENTRATION

The Company maintains its cash in bank and clearing organization deposit accounts which, at times, may exceed federally insured limits. The Company has not experienced any losses in such accounts and believes it is not exposed to any significant risk.

The entire balance of receivables due from brokers, dealers and clearing organizations is attributable to a single clearing organization.

#### NOTES TO FINANCIAL STATEMENTS

# AS OF DECEMBER 31, 2006

#### NOTE 5-FIXED ASSETS

As at December 31, 2006 fixed assets consisted of the following:

Capital leases Furniture and fixtures Office equipment Leasehold improvements	\$ 165,825 78,937 205,227 79,466
	529,455
Less: Accumulated depreciation	( <u>239,073</u> )
NET TOTAL	\$ 290,382 ======

#### **NOTE 6--INCOME TAXES**

The Company's effective income tax rate is different than what would be expected if Federal, state and local statutory rates were applied to income from continuing operations primarily because of certain expenses deductible for financial reporting purposes that are not deductible for tax purposes.

#### **NOTE 7-NET CAPITAL REQUIREMENT**

The Company is subject to the Securities and Exchange Commission's Net Capital Rule 15c3-1, which specifies uniform minimum net capital requirements for all registered brokers and dealers. At December 31, 2006, the Company had net capital, as defined, of \$1,214,319, which was \$214,319 in excess of its regulatory requirements.

#### NOTE 8-COMMITMENTS AND CONTINGENCIES

In May 2002, the Company amended their current lease agreement for the rental of their New York City facilities. The new agreement is for a period of ten years ending in September, 2012 at approximately \$335,000 per annum plus escalation clauses and less certain rent abatements. The Company is responsible for electricity, maintenance and upkeep of the related property including operating expense and real estate tax escalation clauses.

#### NOTES TO FINANCIAL STATEMENTS

#### AS OF DECEMBER 31, 2006

#### NOTE 8--COMMITMENTS AND CONTINGENCIES (CONT'D)

In February, 2004, the Company entered into an agreement for the rental of their Massachusetts offices. The term of the lease is for the three year period from April 1, 2004 to March 31, 2007. The lease calls for a base rent of \$2,030 per month. The Company is also responsible for insurance, utilities and real estate tax and building operating cost escalation clauses. In February, 2006, this lease was amended to include an expansion of the rentable premises and to extend the lease period, under the same general terms and conditions of the original lease, to May 31, 2008. The amendment calls for an annual rent of \$28,985, payable in monthly installments of \$2,415.

Effective July 1, 2006, the Company entered into a lease agreement for the rental of their Woodcliff Lake, New Jersey facilities. The agreement is for a period of ten years and calls for base monthly rental payments ranging from \$15,256 to \$16,309, plus certain utility charges. At the expiration date, the lessee shall have the option to extend the term of the lease for a period of five years under the same general terms and conditions of the original agreement. The Company is also responsible for insurance, utilities, real estate tax and building operating cost escalation clauses.

Minimum future payments under the above agreements for the next five years and thereafter are as follows:

Year	Amount
2007	\$ 548,000
2008	530,000
2009	521,000
2010	524,000
2011	524,000
Thereafter	1,105,000
	\$3,752,000

Total minimum future rental payments have not been reduced by approximately \$2,057,000 of sublease rentals to be received in the future under non-cancelable subleases.

#### NOTES TO FINANCIAL STATEMENTS

# AS OF DECEMBER 31, 2006

#### **NOTE 9—RETIREMENT PLANS**

The Company sponsors a profit sharing plan that covers substantially all of its employees. Contributions to the plan are based on management's discretion. Annual contributions are determined using a percentage of the participating employees' salaries. For 2006, the Company did not make any contributions.

The Company has a 401(k) Plan to provide retirement and incidental benefits for its employees. Employees may contribute any portion of their annual compensation to the Plan, limited to a maximum annual amount as set periodically by the Internal Revenue Service.

#### NOTE 10-USE OF ESTIMATES

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

#### **NOTE 11--SUBORDINATED BORROWINGS**

In October, 2002, the Company borrowed \$1,000,000 under a Qualified Subordinated Loan Agreement. The terms of the agreement require monthly payments of interest only at an interest rate of prime plus 1%. In January 2007, this loan was replaced with a similar loan under the same general terms and conditions. The entire principal amount of the loan is due and payable on January 7, 2008.

The subordinated borrowings are available in computing net capital under the SEC's uniform capital rule. To the extent that such borrowings are required for the Company's continued compliance with minimum net capital requirements, they may not be repaid.

#### NOTE 12-SUPPLEMENTAL CASH FLOW INFORMATION

Cash paid for interest and income taxes are as follows:

Interest
Income taxes

\$93,749

49,351

#### NOTES TO FINANCIAL STATEMENTS

# AS OF DECEMBER 31, 2006

#### **NOTE 13--FINANCIAL INSTRUMENTS**

Derivative financial instruments used for trading purposes, including economic hedges of trading instruments, are carried at market value or, if market prices are not readily available, fair value. Market values for exchange-traded derivatives, principally options, are based on quoted market prices. Fair values for over-the-counter derivative financial instruments, principally options, are based on pricing models intended to approximate the amounts that would be received from or paid to a third party in settlement of the contracts. Factors taken into consideration include credit spreads, market liquidity, concentrations, and funding and administrative costs incurred over the life of the instruments.

Unrealized gains or losses on these derivative contracts are recognized currently in the statement of income as trading revenues. The Company does not apply hedge accounting as defined in FASB Statement No. 133, Accounting for Derivative Instruments and Hedging Activities, as all financial instruments are marked to market with changes in fair values reflected in earnings. Therefore, the disclosures required in paragraphs 44 and 45 of the Statement are generally not applicable with respect to these financial instruments.

Fair values of option contracts are recorded in marketable securities owned or marketable securities sold, not yet purchased, as appropriate. Premiums and unrealized gains and losses for written and purchased option contracts are recognized gross in the statement of financial condition.

#### NOTE 14-DEFERRED LEASE INCENTIVES

The Company has entered into several operating lease agreements, some of which contain provisions for future rent increases, rent free periods, or periods in which rent payments are reduced (abated). The total amount of rental payments due over the lease term is being charged to rent expense on the straight-line method over the term of the lease. The difference between rent expense recorded and the amount paid is credited or charged to "Deferred lease incentives," which is included as a liability on the accompanying Statement of Financial Condition.

EMAIL: MGDCPAS@AOL.COM

JAMES CULLEN KENNETH F. KARDASHIAN GERALD G. WALTERS

To the Board of Directors Vandham Securities Corp.

In planning and performing our audit of the financial statements of Vandham Securities Corp. for the year ended December 31, 2006, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications and comparisons and recordation of differences required by Rule 17a-13.
- 2. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Corporation is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and

# Page -2-February 1, 2007 Vandham Securities Corp.

procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Corporation has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Corporation's practices and procedures were adequate at December 31, 2006 to meet the SEC's objectives.

# Page -3-February 1, 2007 Vandham Securities Corp.

This report is intended solely for the information and use of the Board of Directors, management, the Securities Exchange Commission and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to and should not be used by anyone other than these specified parties.

MYER GREENE & DEGGE

Dated: February 1, 2007
